SOFTWARE ENGINEER EXPERIENCE

Software Developer— Cleverbridge — Chicago, IL

July 2021 – Present

- Develop custom solutions for 50+ global E-commerce clients using Git, JavaScript, React/NextJs, Tailwind, Sass, SQL, and XSLT technologies.
- Maintained, customized UI/UX that generated over \$1 billion in sales from over 10 million customers in 230 counties.
- Acting point of contact for technical evaluations with client facing teams, with an analyst approach to ensure all necessary requirements are gathered before allocating team resources.
- Stakeholder in standardizing code base and implementing modern technologies such as Webpack and ES6 JavaScript into product development.
- Reviewed and refactored code to reduce technical debt and ensure long-term maintainability.

Teaching Assistant, Full-Stack Bootcamp— 2U / Northwestern University — Chicago, IL

Sep 2020 – Present

- Supported and instructed 50+ students in React.js, HTML, CSS, JavaScript, Node.js, SQL, and MongoDB achieving a 95% graduation rate.
- Assisted in curriculum execution, provided one-on-one feedback, and led cohort sessions to enhance student learning and engagement.

Freelance Software Engineer— Medtelligent/SOGO Marketing/Quinn for Illinois — Chicago, IL

May 2017 – July 2021

- Designed, built, tested, and deployed web applications for clients across industries (healthcare, political campaigns).
- Created a sales data tracking dashboard using Chart.js and developed lead-qualification algorithms that boosted sales manager productivity.
- Developed a MERN-stack voter validation app integrated with the Illinois State Board of Elections API, eliminating over 15,000 petition challenges in a single election cycle.
